MEMORANDUM

TO: MS-1’s, Class of 2010
FROM: Julie A. DeLoia, Ph.D.
Kathleen D. Ryan, Ph.D.
Block Coordinators
Fundamentals of Basic Science Block (FBS)

DATE: August 8, 2006

Please be advised of the following books for the courses in the Fundamentals of Basic Science Block.

**MULTI-COURSE BOOKS**

1. A general medicine textbook is highly recommended. The two that students use most are:

   *Note: this text can be found on-line through the Health Sciences Library System*

   *Note: this text can be found on-line through MDConsult*

2. An embryology text, such as:

   **Langman’s Medical Embryology (9th edition)**, T.W. Sadler, Lippincott Williams & Wilkins, 2004. (good if you like to read supplemental lectures and labs).

3. An atlas of histology like:

   **Histology a Text & Atlas.** Ross, Romrell & Kaye, Williams &Wilkins, Baltimore, MD, 2002. (comprehensive text & atlas)

   **Atlas of Function Histology.** Kerr, JB., Mosby International Ltd.,1999. (excellent photographs, limited text)

**COURSE-SPECIFIC BOOKS**

**Medical Anatomy Course:**

Required:

**Primary Text : Grants Dissector (13th edition).** Patrick W. Tank, Ph.D., Williams & Wilkins, 2005.

Supplies Required:  Dissection Kit

Recommended:

   **Langman’s Medical Embryology (10th edition).** Sasler, T.W., Lippincott, Williams & Wilkins, 2006.

**Cell & Tissue Physiology Course:**

Highly recommended:

Books for the Basic Science Block for AY 2006-2007
August 8, 2006
Page 3
